AB - J52092881 Aq. suspension stabilising 2-Zinc pyridinechiol-1-oxide

(Z-Pt) contains ZnO as stabiliser. The Z-Pt is solubilised by surfactant in the form of shampoo, and its tendency to decompose to disulphide in the absence of light or the presence of trace Fe ions is controlled by adding ZnO as stabiliser.

- Z-Pt has antibacterial activity and is effective for treating dandruff.

IW - AQUEOUS SUSPENSION TREAT DANDRUFF CONTAIN ANTIBACTERIAL ZINC OXIDE  
ZINC OXIDE STABILISED

IKW - AQUEOUS SUSPENSION TREAT DANDRUFF CONTAIN ANTIBACTERIAL ZINC OXIDE  
ZINC OXIDE STABILISED
